

The Retreat by Mint Homes Scoops Prestigious Industry Award

The best developments, architecture and interior design from across the length and breadth of the Asia Pacific region were celebrated at the J W Marriott Hotel in Kuala Lumpur on Friday (April 27th). The leading property professionals behind these outstanding projects were invited to attend the Asia Pacific Property Awards. These awards, combined with the other regional awards' programmes for Arabia, Europe, Africa and the Americas, form the globally renowned International Property Awards. Now entering their 18th year, they are the world's most prestigious property competition.

The Retreat by Mint Homes, in Coimbatore, India, competed in the category of Best Development, Multiple Units, against 23 regional entrants from across the Asia Pacific region and was awarded the five star award, signifying the best project of its type in all of India. Featuring structures built to international standards with architecturally stunning exteriors, luxurious interiors and a level of fit and finish unseen in the local market, The Retreat is a landmark project in Coimbatore, one of the fastest growing cities in South India.

Mint Homes develops landmark residential communities, guided by our experience in all facets of the industry from land development to planning, construction management and sales. We are committed to the long term development of our projects, in order to provide maximum potential for appreciation and return on investment. Based in Houston, Texas, Mint Homes' growing global presence includes projects in North America and international locations in India, Eastern Europe, Southeast Asia and South America.

Raj Natarajan, Chairman of Mint Homes, who accepted the award on behalf of The Retreat, says "It is an honor to receive this five star award and to be named the best project in India, and this truly speaks to the caliber of the Retreat as a landmark project in South Asia."

President of the International Property Awards, Stuart Shield, says, "Asia Pacific always puts up a very strong representation across the many different categories within the awards' programme. It also consistently proves to be the hardest region to beat when it comes to competing internationally."
